# Privacy Policy

Effective Date: 12 August 2026

Compliance Framework: Kenyan Data Protection Act (DPA), 2019

---

## 1. Introduction

Master CBC (“we,” “us,” or “our”) respects the privacy of schools, teachers, administrators, and students. This Privacy Policy details how we collect, process, store, protect, and disclose personal and academic data when using our Platform. It applies to all Schools, Principals, Deputy Principals, Teachers, and other authorized users who access Master CBC, and should be read together with our Terms of Service.

## 2. Roles Under the Data Protection Act, 2019

- **Data Controller:** The School (represented by the Principal and Administrators) acts as the Data Controller regarding all student personal data, teacher lists, and examination scores uploaded to Master CBC. The School determines what data is collected and for what internal academic purpose.
- **Data Processor:** Master CBC acts as the Data Processor, processing personal data strictly under the instruction of the School and in accordance with the functionality of the Platform. We do not determine the purposes for which student or staff data is collected beyond operating the Service.
- **MasterCBC Admin Oversight:** MasterCBC Admins may access platform-level metadata (such as account status and system logs) for security, support, and compliance purposes, but do not access a School's academic records except as necessary to provide support or investigate a reported issue.

## 3. Information We Collect

We collect the following categories of data necessary to provide school grading and exam analytics services:

- **Administrative & Staff Data:** Full Name, Institutional Email Address, Phone Number, School Role (Principal, Deputy Principal, Teacher), Assigned Streams, and Assigned Subjects.
- **Student Data:** Student Name, Admission Number, Gender, Year of Birth, Assigned Class/Stream, Elective/Pathway Selections (Senior Secondary), and Historic Assessment Scores/Rubric Ratings.
- **System & Technical Logs:** IP addresses, login timestamps, device profiles, browser type, and system audit logs to preserve data security and verify role-based operations.
- **Account & Billing Information:** Where applicable, institutional billing contacts and subscription details, excluding sensitive payment card data, which is handled by our payment infrastructure partners.
- **Support Communications:** Records of correspondence between School staff and Master CBC Support for quality assurance and issue resolution.

## 4. Legal Basis for Processing

Under the Kenya Data Protection Act, 2019, Master CBC processes personal data on the following legal bases, as applicable:

- **Performance of a Contract:** Processing necessary to deliver the grading, reporting, and analytics functionality the School has signed up for.
- **Legitimate Interests:** Processing necessary for platform security, fraud prevention, and service improvement, balanced against the rights of data subjects.
- **Legal Obligation:** Processing necessary to comply with applicable Kenyan laws and regulatory requirements.
- **Consent:** Where required for specific, non-essential processing activities, consent will be obtained from the relevant School Administrator acting on behalf of the institution.

## 5. How We Use Your Information

Master CBC processes collected data exclusively for the following purposes:

- Authenticating users and enforcing strict role-based dashboard access.
- Calculating overall class means, subject performance trends, point averages, and CBC performance bands (EE, ME, AE, BE).
- Generating printable score sheets, stream comparisons, and student report cards.
- Sending automated system invitations and password reset emails (via secure relay services such as Zoho Mail).
- Preventing unauthorized access across multi-tenant school boundaries.
- Monitoring system performance, diagnosing technical issues, and improving platform reliability.
- Communicating important service updates, maintenance notices, or policy changes to School Administrators.

## 6. Student Data & Children's Privacy

We recognize that a significant portion of the data processed through the Platform relates to learners who are minors. Student accounts are not created or managed directly by students; all Student Data is entered and managed by School Administrators and Teachers acting on behalf of the School, which serves as the responsible Data Controller for that data. Master CBC does not knowingly collect data directly from students, does not permit students to create their own login credentials, and does not use Student Data for marketing or advertising purposes of any kind. Schools are responsible for ensuring that any collection or upload of Student Data complies with applicable Kenyan law, including obtaining any parental or guardian consent required for their institutional records.

## 7. Data Isolation & Security Architecture

We apply enterprise-grade security controls to ensure data protection:

- **Row-Level Security (RLS):** All database queries are isolated at the database level by a unique `school_id`. No user, teacher, or principal can query, view, or alter records belonging to a different school.
- **Encryption:** Data in transit is protected using modern TLS/SSL encryption protocols. Sensitive authentication credentials and service keys are stored securely within isolated environment blocks.
- **Password Policy:** Mandatory password updates are enforced on all manually provisioned teacher accounts upon initial login.
- **Access Logging:** System audit logs record login activity and key administrative actions to support security monitoring and incident investigation.
- **Least-Privilege Access:** Internal Master CBC personnel access to production data is restricted to MasterCBC Admins and engineers on a need-to-know basis for support and maintenance purposes.

## 8. Data Sharing and Third-Party Service Providers

We do not sell, rent, trade, or monetize any student, teacher, or institutional data to third parties or advertisers. Data is shared strictly with infrastructure providers necessary to run the service:

- **Database & Hosting (Supabase):** Secure cloud database infrastructure hosting encrypted application state and authentication logic.
- **Email Relays (Zoho Mail):** SMTP dispatch service used solely for transmitting onboarding invite links and password reset requests.
- **Legal & Regulatory Disclosure:** We may disclose data where required by Kenyan law, a valid court order, or to protect the rights, property, or safety of Master CBC, our Users, or the public.

All third-party service providers are contractually bound to process data only for the purposes we specify and to apply security measures consistent with this Policy.

## 9. International Data Transfers

Our infrastructure providers may process data on servers located outside Kenya. Where personal data is transferred outside Kenya, we take reasonable steps to ensure such transfers comply with the Kenya Data Protection Act, 2019, including relying on providers that maintain appropriate technical and organizational safeguards equivalent to those required under Kenyan law.

## 10. Data Breach Notification

In the event of a data breach likely to result in a risk to the rights and freedoms of data subjects, Master CBC will notify affected School Administrators without undue delay and will cooperate with the School, as Data Controller, in meeting any notification obligations owed to the Office of the Data Protection Commissioner (ODPC) and affected data subjects under the Kenya Data Protection Act, 2019.

## 11. Data Archiving & Retention

- **Active Academic Records:** Student records and examination histories are retained for as long as the school maintains an active account.
- **Transferred & Expelled Students:** When a student status is marked as “Transferred” or “Expelled” by a School Administrator, the record is flagged as Archived. Archived records are removed from active stream lists but retained in historical database tables to ensure past class mean scores, subject analytics, and printed report cards remain accurate.
- **Post-Termination Retention:** Following account termination, data may be retained for a limited period to allow for export requests and to comply with applicable legal or record-keeping obligations, after which it is securely deleted or anonymized.

## 12. Your Data Protection Rights

In accordance with the Kenya Data Protection Act, 2019, data subjects (including Teachers and Administrators, and Schools on behalf of their students) have the following rights, which may be exercised by contacting the relevant School Administrator or Master CBC directly:

- **Right of Access:** To request confirmation of what personal data is held and to obtain a copy of it.
- **Right to Correction:** To request correction of inaccurate or incomplete personal profiles or records.
- **Right to Erasure:** To request deletion of personal data where it is no longer necessary for the purposes for which it was collected, subject to lawful retention obligations.
- **Right to Object & Restrict Processing:** To object to or request restriction of certain processing activities.
- **Right to Data Portability:** Authorized School Administrators can export student rosters, score matrices, and exam analysis sheets into printable formats or tabular spreadsheets at any time.
- **Right to Lodge a Complaint:** To lodge a complaint with the Office of the Data Protection Commissioner (ODPC) of Kenya if you believe your data protection rights have been violated.

Because Schools act as Data Controllers for Student Data, requests relating to student records should generally be directed to the relevant School in the first instance; Master CBC will support Schools in fulfilling such requests through the Platform's administrative tools.

## 13. Cookies & Similar Technologies

The Platform uses strictly necessary cookies and similar technologies (such as local session tokens) to keep Users securely signed in and to remember basic interface preferences. We do not use third-party advertising or cross-site tracking cookies. Where analytics tools are used to understand platform usage and improve performance, data is aggregated and used solely for internal product improvement.

## 14. Changes to This Privacy Policy

We may update this Privacy Policy periodically to reflect changes in our practices, technology, legal requirements, or other factors. Material changes will be communicated to School Administrators in advance, such as by email or in-platform notice, and the “Effective Date” at the top of this document will be updated accordingly. Continued use of the Platform after changes take effect constitutes acceptance of the revised Policy.

## 15. Data Protection Officer & Contact Us

If you have any questions regarding this Privacy Policy, or if you wish to exercise data rights regarding your school's information, please contact our administrative team at: **[support@mastercbc.co.ke](mailto:support@mastercbc.co.ke)**
